TIGP CBMB

CBMB Colloquium Report Regulations

1. The course grade is based on the number of reports submitted. 8 valid reports give a passing grade of 70, 9 valid reports give a grade of 75, and 19 valid reports give the maximum grade of 98.

2. The following are all eligible for a CBMB colloquium:
   a. Distinguished Lectures
   b. Seminars
   c. International Conference
   d. Symposium

3. Starting from the Autumn 2020 semester, students will be required to verify their seminar attendance by getting a stamp from the institutes that host seminars and handwriting a summary of the seminar. You are responsible for printing the template and getting the proof. The report will only count toward your final grade if you submit the correct information and proof (stamp from the host institution). No excuses.

4. Students are required to scan and hand in all the reports as one single PDF file and name the file as year Autumn/Spring CQ – student name to the CBMB office by 12:00 on 8 January 2021. Ex: **2020 Autumn CQ-Vicki Huang**

5. Reports must be submitted to the CBMB office before the deadline to be eligible for full credit. Late submissions are only accepted at the discretion of the program and may result in grade deductions or failure of the course. Each year, a number of reports will be audited for quality control.

6. Plagiarism is strictly prohibited and will result in immediate failure of the course (score=0).
